Status of the second legal review (LEGAL-REVIEW-2.md)

That review was written against the pack **before** the 27–28 Oct fixes (it answers 13 questions; the current pack has 16). Status on 28 Oct 2026:

Main site (Crown Pass, Gulf Pass)

ID	Status
Founding price conflict (R11)	**Fixed 27 Oct**: first year only, then £39.99; no struck-through price
Gemini / health consent / AI (P01–P05)	**Fixed**: Academy AI removed 28 Oct; own-key only; health-consent wording replaced
T01 agreement & confirmation, R02 durable copy	**Fixed**: order confirmation email (terms version, rights, full model form) live via Resend
T02 suspension reviewer	**Fixed 27 Oct** (honest review wording)
T03 closure stops billing	**Fixed**: Close my account cancels renewals immediately
T04 adult payer	**Fixed**: required box “18 or over, or a parent or guardian paying”; server refuses without it; stored in Stripe metadata
T05 overseas rights saving	**Fixed 27 Oct**
T06 changes power	**Fixed 27 Oct**
T07 trading address	**Owner**: give the geographic address where the business is actually established (a mail-forwarding address does not automatically satisfy this). Keep Shelton Street labelled as the registered office. Add a separate complaints address only if different
T08 business-use exclusion	**Fixed**
R03 period can be extended	**Fixed**
R04 three-day promise	**Fixed** (72 hours from payment, matches code)
R05/R06 deduction safeguards and formula	**Fixed** (real period dates; amount shown before confirming)
R07 repeat refund	**Fixed 27 Oct** (email route, cancellation date = date of message)
R08 renewals	**Fixed**
R09 remedies	**Fixed**

ID	Status
R10 reminders	**Owner**: enable and verify trial-ending and renewal reminders in sandbox and live; check the email content, amount, date and cancellation link
R12 model form	**Fixed** (full statutory model on page and in email)
R13 cancellation acknowledgement	**Fixed**: email after every instant refund or trial cancellation
R14 overseas tax	**Accountant**: written country-by-country conclusion (actual operating location, customer types, products) **before** accepting affected Gulf/EU sales
P06 transfers, P04 supplier terms	**Draft ready**: `SUPPLIER-REGISTER.md`. Owner checks incorporated DPAs (Supabase, Stripe, Resend incorporate them), keeps version/acceptance evidence and verifies transfer coverage
P07 backups	**Fixed** wording. Recommendation (not a legal requirement): Supabase Pro (from US$25/month) for daily backups kept 7 days; test a restore
P08 streak cookie	**Fixed 27 Oct** (opt-in)
P09/P11 privacy detail, cookie inventory	**Open (should fix)**: browser storage audit
P10 children's DPIA (16–17)	**Draft ready**: `DPIA-CHILDREN-16-17.md`. Removing AI simplifies it but children's duties remain; owner checks facts and signs
R01 service vs digital content	**Unresolved; brief ready**: `CLASSIFICATION-BRIEF.md`. Saying our policy is a minimum does not make checkout compliant; digital-content early supply needs its own consent/acknowledgement. Solicitor to decide

Lean Six Sigma (L, *LP*, LR*)

Wording fixes on branch `claude/legal-review-fixes` (owner to merge). Still to build: confirmation email, cancellation acknowledgement, refund preview, close account, and certificate not withdrawn after a fault refund (LR02).

Evinca (E*)

Paid launch June 2027. 18+ and early-start boxes built 27 Oct; policy fixes partly done. Remaining before June: Article 14 notice workflow, independent appeal/hardship person, refund stage after scoring starts, credit terms, access-fee eligibility, team publication permission, retention schedule, data-complaints route.
