HEALTHCARE CROWN ACADEMY

Publishing pack: app tour videos

Copy-ready titles, descriptions, captions, keywords and targeting for 7 apps on YouTube, YouTube Shorts, TikTok, Facebook, LinkedIn, Telegram and Instagram.

Prepared 3 November 2026 · Contact: hello@healthcarecrownacademy.co.uk

Apps: MedLex · Lumen · Carecraft · Serein · Gulf Region Nursing · Evinca · Lean Six Sigma Green Belt

What is inside

1. How to use this pack
2. Rules for every post
3. Platform playbook
4. Files for each app
5. Keywords and audiences at a glance
6. 14-day launch calendar
7. MedLex: all platforms
8. Lumen: all platforms
9. Carecraft: all platforms
10. Serein: all platforms
11. Gulf Region Nursing: all platforms
12. Evinca: all platforms
13. Lean Six Sigma Green Belt: all platforms
14. Measuring results

How to use this pack

1. Pick the app and the platform from the calendar on the launch day.
2. Upload the right file: landscape (16:9) for YouTube, Facebook, LinkedIn and Telegram; portrait (9:16) for TikTok, YouTube Shorts and Instagram Reels.
3. Copy the text from the cream boxes exactly. Links already carry a ?ref= tag so you can see which platform sends visitors.
4. Upload the matching subtitle file (.srt) wherever the platform allows it. Search engines read subtitles, and most people watch with the sound off.
5. Reply to every comment within 24 hours for the first two weeks. Early replies tell the platform the post is worth showing to more people.
6. After 14 days, check the results (last section) and repeat what worked.

Rules for every post

- **Upload videos natively.** Upload the MP4 to Facebook, LinkedIn and Telegram directly. Do not paste a YouTube link instead: native video reaches far more people.
- **Hook first.** The first line (or the first 2 seconds of a video) decides whether people stop. Every caption below starts with the hook.
- **Keywords early.** Put the main search phrase in the title and the first two lines of the description. Platforms show and index these first.
- **LinkedIn links go in the first comment.** Posts with an outside link in the main text usually reach fewer people. Post, then add the link as the first comment straight away.
- **Gulf disclaimer, always.** Every Gulf Region Nursing caption, description and ad must include: "Original practice material, not official exam questions. Not endorsed by SCFHS, DHP, DHA or DOH." The videos already show it on screen. Never crop it.
- **Accurate wording.** The Green Belt gives a Certificate of Completion, not an accredited certification. Never write "official questions", "guaranteed pass" or "certified".
- **Serein safety line.** Wherever space allows, keep: "Serein is not therapy or emergency care. If you are in crisis, contact your local emergency number."
- **No patient information.** Never post patient details, real cases or real exam questions.
- **Check keywords before paying for ads.** The keywords here follow how people commonly search for these topics. Before a paid campaign, confirm them with YouTube and TikTok search suggestions and Google Keyword Planner.

Platform playbook

Platform	File	Settings that matter	Hashtags
YouTube	Landscape 16:9	Title under 70 characters, keyword first. Paste tags. Upload the .srt subtitles. Add to playlist. Audience: "No, it's not made for kids". Add an end screen to the Academy channel. Pin the comment.	3 in the description
YouTube Shorts	Portrait 9:16	Shorts accept up to 3 minutes, and every tour is under 2:15. Use the Shorts title. Link the related long video.	2 in the title
TikTok	Portrait 9:16	Add the hook as on-screen text for the first 2 seconds. Turn on captions. Use the caption keywords: TikTok search reads them. Business account for the bio link.	3 to 5
Facebook	Landscape 16:9	Upload natively. Upload the .srt. First line is the hook. Pin the first post on the Page.	1 to 3
LinkedIn	Landscape 16:9	Upload natively with the .srt. Hook in the first two lines (about 200 characters show before "see more"). Link in the first comment.	3
Telegram	Landscape 16:9	Send the video with the post text as its caption. Pin the latest tour.	None needed
Instagram Reels	Portrait 9:16	When the account is restored. Keyword-rich caption, alt text, cover image.	3 to 5

Best times to post (starting points, then adjust to your own analytics): LinkedIn Tuesday to Thursday 8 to 10 am; Facebook lunchtime and 7 to 9 pm; TikTok, Shorts and Instagram 7 to 10 pm; YouTube about 2 hours before the evening peak. Always use the time zone of the people you want to reach. For Gulf Region Nursing, that means India, the Philippines and the Gulf, not the UK.

Files for each app

App	Landscape video	Portrait video	Subtitles
MedLex	MedLex-tour-landscape-16x9-1080p.mp4	MedLex-tour-portrait-9x16-1080p.mp4	MedLex-tour-landscape.en.srt MedLex-tour-portrait.en.srt

App	Landscape video	Portrait video	Subtitles
Evinca	Evinca-tour-landscape-16x9-1080p.mp4	Evinca-tour-portrait-9x16-1080p.mp4	Evinca-tour-landscape.en.srt Evinca-tour-portrait.en.srt
Lean Six Sigma Green Belt	LeanSixSigma-GreenBelt-tour-landscape-16x9-1080p.mp4	LeanSixSigma-GreenBelt-tour-portrait-9x16-1080p.mp4	LeanSixSigma-GreenBelt-tour-landscape.en.srt LeanSixSigma-GreenBelt-tour-portrait.en.srt

Use the subtitle file that matches the shape of the video: the timings differ slightly between the two.

Keywords and audiences at a glance

App	Main keyword	Supporting keywords	Who to reach
MedLex	medical terminology	medical terminology for nurses, learn medical terminology, medical terminology prefixes and suffixes, medical word parts	Nursing and medical students, healthcare assistants, allied health students, medical secretaries, and international healthcare workers who work in English as a second language.
Lumen	active recall	spaced repetition, study tips for nursing students, flashcards from PDF, how to study lecture notes	Nursing, medical and allied health students revising for exams, and qualified staff studying for courses or CPD.
Carecraft	communication skills in healthcare	SBAR handover, teach-back method, patient safety training, healthcare assistant training	Healthcare assistants, care workers, student and newly qualified nurses, preceptors, and the educators and managers who train them.
Serein	nurse burnout	self care for nurses, breathing exercises for stress, box breathing, grounding techniques	Nurses, doctors, healthcare assistants, care workers and students under shift pressure.
Gulf Region Nursing	SNLE exam	Saudi nursing licensure exam, SCFHS exam for nurses, DHA exam for nurses, DOH exam for nurses (formerly HAAD)	Nurses preparing for a Saudi, Qatar, Dubai or Abu Dhabi licence, including many applying from India, the Philippines, Egypt, Jordan, Pakistan, Sudan, Kenya and Nigeria, and nurses already working in the Gulf.
Evinca	healthcare recognition	nurse recognition, staff recognition in healthcare, quality improvement stories, nursing excellence	Nurses, midwives, allied health professionals, healthcare assistants, improvement and quality leads, and managers who want to recognise their teams.
Lean Six Sigma Green Belt	Lean Six Sigma in healthcare	Lean Six Sigma Green Belt, DMAIC in healthcare, quality improvement in healthcare, Lean Six Sigma training online	Quality improvement leads, patient safety officers, nurse managers, clinical governance teams, operations managers and clinicians who lead improvement projects.

MedLex: Understand medical words

Links used below: each platform has its own tagged link, for example https://medlex.healthcarecrownacademy.co.uk/?ref=youtube-tour

Keywords

Main keyword: medical terminology

Supporting keywords:

- medical terminology for nurses
- learn medical terminology
- medical terminology prefixes and suffixes
- medical word parts
- root words in medical terminology
- medical terminology app

Questions people search (use them as video and post topics):

- how to memorize medical terminology fast
- what does -itis mean
- medical terms for nursing students
- medical terminology for beginners

Who to reach and where

Nursing and medical students, healthcare assistants, allied health students, medical secretaries, and international healthcare workers who work in English as a second language.

- Nursing and medical student groups on Facebook (post only where the rules allow)
- TikTok and Instagram study communities (#studytok, #nursingstudent)
- LinkedIn: nursing lecturers and clinical educators, who can recommend it to students
- Telegram study channels for nursing students

Paid targeting, Meta (Facebook and Instagram): Age 18–34. Interests: nursing, nursing school, medical school, health education. Job title or education: student nurse, nursing student, healthcare assistant.

Paid targeting, LinkedIn: Job titles: Nursing Lecturer, Clinical Educator, Practice Educator, Healthcare Assistant, Student Nurse. Industries: Hospitals and Health Care, Higher Education.

YouTube (landscape)

TITLE

> Learn Medical Terminology Fast: Prefixes, Roots & Suffixes | MedLex

DESCRIPTION

> Learn medical terminology the fast way: split every medical word into its prefix, root and suffix, and it explains itself. This 2-minute tour shows MedLex, the medical terminology app from Healthcare Crown Academy.
>
> Inside MedLex:
>
> • 26 body-system modules and 1,480 medical terms
>
> • 66 prefixes, 60 roots and 100 suffixes, each with its own word-part studio
>
> • 56 illustrated guides in the Visual Atlas
>
> • A 10-minute daily session that mixes new words with spaced reviews

• Build-the-word practice and feedback that explains every answer

Made for nursing and medical students, healthcare assistants, allied health students and anyone who works in healthcare in a second language.

PINNED COMMENT

Which medical word confused you most this week? Drop it below and we will break it into parts. Try MedLex free: https://medlex.healthcarecrownacademy.co.uk/?ref=youtube-tour

Settings:

- Playlists: App tours · Healthcare Crown Academy; Medical terminology made simple.
- Thumbnail text: "45 LETTERS. 7 PARTS." over the coloured word parts of pneumonoultramicroscopicsilicovolcanoconiosis.
- Subtitles: upload MedLex-tour-landscape.en.srt (Subtitles, then Upload file, then With timing).
- End screen: subscribe button plus one other app tour.
- Audience: No, it's not made for kids.

YouTube Shorts (portrait)

SHORTS TITLE

This 45-letter medical word is just 7 parts #medicalterminology #nursingstudent

Subtitles: MedLex-tour-portrait.en.srt. In "Related video", link the long landscape tour.

TikTok (portrait)

ON-SCREEN TEXT FOR THE FIRST 2 SECONDS

This 45-letter medical word is just 7 parts

CAPTION

Medical terminology gets easy when you split words into prefixes, roots and suffixes. MedLex has 1,480 terms in 26 modules and is free to start. Link in bio. #medicalterminology #nursingstudent #nursingschool #studytok #medlex

Turn on auto captions and check the spelling of app names. Use the hook as the cover text. Put the tagged link in the bio: https://medlex.healthcarecrownacademy.co.uk/?ref=tiktok-tour

Facebook (landscape)

POST

Medical words are not hard. They are just long.

Pneumonoultramicroscopicsilicovolcanoconiosis has 45 letters, but only a few simple parts. Learn the parts once, and thousands of medical terms start to make sense.

> MedLex is a medical terminology app with 26 body-system modules, 1,480 terms, 56 illustrated guides and a 10-minute daily session. Watch the 2-minute tour.
>
> Start free: https://medlex.healthcarecrownacademy.co.uk/?ref=facebook-tour
>
> #MedicalTerminology #NursingStudent

LinkedIn (landscape)

POST (FROM THE ACADEMY PAGE)

> Every medical word is a puzzle you can solve.
>
> Most people learn medical terminology by memorising long lists. It rarely sticks. Split each word into its prefix, root and suffix, and it explains itself: peri + card + itis = inflammation around the heart.
>
> MedLex teaches exactly that: 66 prefixes, 60 roots and 100 suffixes, 1,480 terms across 26 body-system modules, and a 10-minute daily session with spaced reviews.
>
> Educators: it works well as pre-reading for anatomy and physiology modules. The tour is below, and the link is in the first comment.
>
> #MedicalTerminology #NursingEducation #HealthcareEducation

Lumen: Study from your own notes

Links used below: each platform has its own tagged link, for example https://lumen.healthcarecrownacademy.co.uk/?ref=youtube-tour

Keywords

Main keyword: active recall

Supporting keywords:

- spaced repetition
- study tips for nursing students
- flashcards from PDF
- how to study lecture notes
- study app for students
- revision techniques

Questions people search (use them as video and post topics):

- how to stop rereading and actually remember
- turn lecture notes into flashcards
- best way to study from PDFs
- active recall study method

Who to reach and where

Nursing, medical and allied health students revising for exams, and qualified staff studying for courses or CPD. Especially people who already have lots of PDFs and notes.

- TikTok and Instagram study communities (#studytok, #activerecall)
- Student groups on Facebook and Telegram
- LinkedIn: educators and CPD leads

Paid targeting, Meta (Facebook and Instagram): Age 18–34. Interests: study tips, nursing school, medical school, online learning, productivity.

Paid targeting, LinkedIn: Job titles: Nursing Lecturer, Clinical Educator, Learning and Development Lead. Also members with "student" in their headline in health-related fields.

TITLE

> Turn Your PDFs & Lecture Notes Into Recall Cards | Lumen Study App

DESCRIPTION

> Stop rereading. Lumen turns your own PDFs, lecture notes and photos into recall cards, so you study with active recall instead of highlighting everything again. Your library stays on your device.
>
> Inside Lumen:
>
> • Read your PDFs and photos and highlight what matters
>
> • Quiz yourself on any page: questions and a summary built from your own source
>
> • Recall cards with spaced review
>
> • Six practical study methods and 25-minute focus sessions
>
> • No automatic uploads: your files stay on your device
>
> Made for nursing, medical and allied health students, and anyone in healthcare who studies from their own material.

> Start free: https://lumen.healthcarecrownacademy.co.uk/?ref=youtube-tour

TITLE

2-Minute Stress Resets for Nurses & Care Staff | Serein (Free)

DESCRIPTION

A little room to breathe, between tasks. Serein gives health and care staff 15 short, private practices for before, during and after a shift: breathing, grounding, movement and reflection. Free for everyone. Nothing is monitored.

Inside Serein:

• Two-minute resets you can use on a short break

• Box breathing, Breathing Tide and a hand and finger reset

• 12 illustrated guides and short journeys

• A ritual builder for the start and end of a shift

• A support page that shows where to get help

Serein supports everyday wellbeing. It is not therapy or emergency care. If you are in crisis, contact your local emergency number.

POST (FROM THE ACADEMY PAGE)

> Wellbeing support for clinical staff often fails for one reason: there is no time to use it.
>
> Serein is built around the time staff actually have: two minutes on a break. 15 short practices for before, during and after a shift, 12 illustrated guides, and a support page that shows where to get help. Free for everyone. Nothing is monitored, so staff can use it privately.
>
> Wellbeing leads: it is free to share with your teams. Tour below, link in the first comment.
>
> #StaffWellbeing #NurseBurnout #HealthcareLeadership

FIRST COMMENT, STRAIGHT AFTER POSTING

POST (FROM THE GREEN BELT SHOWCASE PAGE)

Most Lean Six Sigma training was written for factories. Healthcare deserves better.

A delayed discharge, a missed handover, a waiting list that never shrinks: these are process problems, and DMAIC works on them when the examples and tools fit healthcare.

The Green Belt toolkit gives you 30 DMAIC tools you use on your own project, 9 live statistical engines, 10 simulations (Red Bead, Deming's funnel, Little's Law, Swiss cheese), a knowledge exam and a Certificate of Completion.

Tour below, link in the first comment.

Measuring results

Every link carries a ?ref= tag, for example ?ref=youtube-tour or ?ref=linkedin-tour. Your website analytics show which tags bring visitors and sign-ups.

Check weekly	Where	Good sign
Views and average view duration	YouTube Studio, TikTok and LinkedIn analytics	People watch past 30 seconds
Search traffic	YouTube Studio: Traffic source, then YouTube search	Search terms that match your keywords
Clicks to the apps	Website analytics, by ?ref= tag	Clicks from more than one platform
Sign-ups and trials	App admin dashboards	Sign-ups that follow a post within 48 hours
Comments and questions	Every platform	Real questions: turn them into the next posts

What to do after 14 days

1. Keep the two platforms that bring the most clicks, and post there twice a week.
2. Turn the most common comment questions into short videos (one question, one answer, under 60 seconds).
3. For Gulf Region Nursing, consider Arabic captions and an Arabic title line. Have a native speaker check them first.
4. Only start paid ads once a post has done well on its own. Boost that post, not a new one.
